Art Unit: 2143

DETAILED ACTION

Election/Restrictions

Newly added claims 54 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the original claims were directed to data-interpretation module for creating object model, executing the object model, and applying logic resulting from execution of the object model, then allowing a user to control how data is rendered.

The newly added claims are directed towards establishing a temporary link with an information source in a network, downloading the information while connected, forming therefrom a presentation, and then allowing a user to interact with the presentation.

The two inventions are thus disclosed as sub-combinations being usable together, capable of functioning independently of each other. Restriction for examination purpose is required because the newly claimed invention functions in a different manner than the original invention and would require a new search that was not previously required.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits.

Application/Control Number: 10/033,097

Art Unit: 2143

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alina N. Boutah whose telephone number is 571-272-3908. The examiner can normally be reached on Monday-Friday (9:00 am - 5:00 pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David A. Wiley can be reached on 571-272-3923. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
